

**REMARKS/ARGUMENTS**

Claims 1-54 and 56-95 are pending. Claim 55 was previously cancelled. In this Amendment, claims 1, 43, 68, 69 and 94 are amended. Following entry of this amendment, claims 1-54 and 56-95 will remain pending.

In the Final Office Action, the Examiner rejected claims 1-43 and 68-95 asserting that independent claims 1, 43, 68, 69 and 94 fail to meet the requirements of 35 USC §112, ¶2 and the other rejected claims depend from those independent claims. The Examiner allowed claims 44-54 and 56-67.

In response to the rejection under §112, Applicant submits amendments herein to claims 1, 43, 68, 69 and 94 deemed responsive to the rejection. It should now be even more clear that output symbols are encoded such that they are transmittable to the client in a manner that is independent of which other output symbols were transmitted to the client. No new matter is introduced by this amendment as the amendment is supported by the originally filed application, such as, for example, paragraphs [0062] and [0125].

**CONCLUSION**

In view of the foregoing, Applicants believe all claims now pending in this Application are in condition for allowance and an action to that end is respectfully requested.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,
